The surprise gesture of goodwill comes with a funny caveat from producer Toshio Suzuki. Studio Ghibli has built a reputation over the years for stubbornly maintaining strict control over the distribution and copyright of its films, even once sending Harvey Weinstein's samurai sword with a message no cuts in relation to the overseas version of Princess Mononoke. So it came as a bit of a surprise to find the acclaimed animation studio finally releasing its once-firm grip on their movies this year, first with the release of their films on Netflix and then with the free distribution of official backgrounds for meet-ups during the pandemic. Now the studio is taking another unprecedented step by announcing that they will release hundreds of images from their films to the public to use for free, with one caveat: they should be used within common sense. The images were released with this handwritten message from Ghibli producer Toshio Suzuki: Please use them freely within common sense. While this reservation may seem a little strange, it is simply a reminder that this gesture of goodwill should not be abused for advertising or for non-human purposes. And it's certainly a gesture of goodwill as they released a whopping 400 downloadable images from eight of their films, with the promise of more in the future. There are 50 images available for each of the following films: When Marnie Was There Ponyo The Secret World of Arrietty From Up On Poppy Hill The Tale of Princess Kaguya Wind Rises Tales from Earthsea Spirited Away Images that can be downloaded from the official site Studio Ghibli, are a wonderful reminder of the stunning hand-animated scenes produced while they are beautiful to view themselves. Images can also be used for themselves. . . inspiration for artists and aspiring animators, or for printouts in glossy color to decorate the walls of your home. Now that the Ghibli Museum has tentatively reopened after it was closed for six months during the pandemic, it is good to see anime studios doing their best to spread the joy around the world in these difficult times. We can't wait to see which movies will be included in the next image release! Source, Images: Studio Ghibli - Want to hear about the latest SoraNews24 articles as soon as they are published? Studio Ghibli has made it possible for fans to download free, hi-res images from eight of their iconic films. Studio Ghibli is known for its extremely protective stance on the distribution of its films and images, but it seems that the studio is weakening. The studio recently released 400 images to its official website, sharing 50 images for each selected film. While some fan-favorites are missing, fans will be able to download hi-res photos from When Marnie Was There, Ponyo, Secret World Of Arrietty, From Up On Poppy Hill, A Tale of Princess Kaguya, Wind Rises, Tales from Earthsea and Academy Awards Spirited Away. Continue scrolling to continue reading Click below to start this article in a quick submission. Start now however, Studio Ghibli producer Toshio Suzuki has included a special request with this free download option. Suzuki asked fans to please freely use the images as part of common sense. Fans have suggested that this means that images should not be used in any inappropriate conditions that could infringe on artistic rights. Instead, they should be used for personal pleasure for lovers like screensavers, inspiration for budding artists and animators or posters for bedroom walls. This is not the first time that Studio Ghibli has moved from its usually strict position on the distribution and copyright of its creations. The studio also provided free scaling backgrounds, including Sophie's hat shop in Moving Castle Howe and a bakery at Kiki's delivery service, for use at meetings. Earlier this year, the studio also announced that the Ghibli collection would be to stream on Netflix in 190 countries. Although Netflix USA has not been included, the Ghibli collection can currently be streamed through the HBO Max platform.
